**DECLARATION OF CHARMAYNE WILSON IN SUPPORT  
OF PETITION UNDER 37 CFR 1.53(e) TO SHOW RECEIPT OF ITEM  
IN RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL  
APPLICATION**

Commissioner for Patents  
Washington, D.C. 20231

Dear Sir or Madam:

I, Charmayne Wilson, hereby declare that:

I am employed by the law firm of Morrison & Foerster, LLP, having offices at 425 Market Street, San Francisco, CA 94105 (Morrison & Foerster). Morrison & Foerster is Applicant's legal representatives in the above-captioned matter. I work assisting Stephen C. Durant, the prosecuting attorney of record in the above-captioned matter. I also work with Donalyn Pryor, another employee of Morrison & Foerster, LLP who assists Stephen C. Durant.

Prior to filing any patent application in the United States Patent and Trademark Office (PTO), it is the policy and procedure of Morrison & Foerster to print out a complete copy of the specification of a patent application, make an exact photocopy of the complete original specification, along with any drawings and other formal papers, and

file the photocopy in the center section of a tri-fold file folder marked with client identification information. The original specification, along with any drawings and other formal papers, is then placed in an Express Mail envelope the envelope is sealed, and the application is deposited with the U.S. postal service by the person named on, and signing, the Certificate of Express Mailing included with the patent application.

I consistently follow this procedure when preparing and filing United States patent applications.

I followed this procedure on December 22, 2000 when preparing and filing the above-captioned patent application. Specifically, I printed out an original copy of the specification, I photocopied the application, including the specification and drawings, and placed the photocopy of the application in the center section of a tri-fold file folder marked with client identification information. I then handed the original specification, along with the drawings, and other formal documents to Donalyn Pryor.

Also, on December 22, 2000, I prepared a new Provisional Patent Application with identical contents absent one claim. The Express Mail Receipt for this Express Mail envelope notes the weight as 2 lbs. 10 ounces. I obtained a copy of the file history for this provisional patent application (Serial No. 60/258,112), and it contains a specification of pages 1-85.

Since filing the photocopy of the application in the center section of the tri-fold file folder, I have not removed the photocopy of the application therefrom or otherwise tampered with or added any pages to the photocopy of the application. However, I since then removed the patent application that was in our patent file to determine the weight of the application as approximately 2 lbs. 13.6 ounces. In addition, I weighed the application without pages 1-85 of the specification, and the weight was 1 lb. and 15 ounces.

Additionally, Donalyn Pryor and I have had primary responsibility for the tri-fold file folder from the time the application was filed. To the best of my knowledge, the tri-

fold file folder has remained in the offices of Morrison & Foerster since the time the application was filed.

I further declare under penalty of perjury under the laws of the United States of America that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket no. 404332000200. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Dated: May 7, 2001
